Portfolio

Summary

Dynamic software engineer with a proven track record, adept at handling technical challenges and delivering efficient solution to ensure client satisfaction. Skilled front-end frameworks and HTML5, show casing exceptional problem-solving abilities and technical expertise. Excellence a Web Developer Intern at Zaions, enhancing user experience through responsive design and innovative solutions.

Experience

Algo Soft Tech   **May 2025 – November 2025**
Frontend Developer
- Developing and maintaining dynamic, high-performance frontend interfaces using React.js and modern JavaScript (ES6+).
- Designing and implementing responsive UI components that deliver seamless user experiences across web and mobile devices.
- Integrating frontend applications with RESTful APIs, ensuring efficient data flow, security, and reliability.
- Conducting thorough UI testing and debugging to ensure optimal performance, accessibility, and cross-browser compatibility.
- Architecting scalable and maintainable component-based frontends using modern state management libraries such as Redux or Context API.

Innvobyte   **February 2025 – April 2025**
Frontend developer
- Developed responsive and user-friendly interfaces using React.js, HTML5, and CSS3
- Built interactive features and dynamic components using modern JavaScript (ES6+) and React hooks
- Developed interactive prototypes for client feedback sessions using HTML, CSS, JavaScript, and React

Zaions
Frontend designer and developer   **April 2024 – December 2024**
- Developed dynamic web interfaces using React.js, HTML5, and CSS3 for responsive user experiences.
- Built reusable React components and managed application state using Hooks and Context API.
- Integrated RESTful APIs and optimized component performance for faster load times and scalability.

Web Developer Intern   **February 2024 – March 2024**
- Developed user interfaces with modern JavaScript frameworks, HTML5, and CSS3
- Wrote custom HTML and JavaScript for existing websites
- Developed interactive prototypes using HTML, CSS, and JavaScript for client presentations and feedback sessions

Education

Minhaj University Lahore   **2021 - 2025**
Bachelor of Science, Software Engineering
- **CGPA:** 3.67

Govt. Shalimar Collage   **2019 - 2021**
Intermediate Computer Science

Govt. Boys High Secondary School   **2017 - 2019**
Computer Science

University Project

Cafe Management System using C++   **2022**
- Develop Cafe product management, and order taker.
- Handle all product like add, delete and update stocks.
- Develop by using fundamentals of programming, OOP.

Online Crockery Store (Design) using SDA   **2023**
- Design online store aritchture and design
- Using Diagram Like use case diagram, Class diagram, sequence diagram and many more.
- Using Technology Draw.io & Visual Paradiam.

Crockery Management System using C#   **2024**
- Developed System by using C# (using Window form) a Desktop application.
- A complete desktop application develops with backend of MySQL (Database)
- Elegant and fully functional which help me personally.

CV-Builder - Web base   **2024**
- Develop CV builder clone using HTML, CSS & JavaScript.
- Handle Template data enter and save local storage

- Develop by using fundamentals of programming, OOP.

Student Attendance System - Mobile application   **2024**
- Developing Student attendance management by using flutter and Firebase (Backend).
- Handle student inventory and attendance marks.
- User Authentication by using firebase.

Live Project

Skill Sharing App (FYP) – Live Demo   **2025**
- A full-stack web app connecting users to share and learn skills.
  Technologies: React, Firebase Auth, Firestore, Firebase Storage, Vercel.

Online Real-time Chat System – Live Demo | GitHub   **2025**
- A real-time chat application allowing for instant messaging and communication.
  Technologies: React, Firebase Realtime Database, Axios, Tailwind CSS.

Weather Forecast App – Live Demo | GitHub   **2025**
- A web application to check real-time weather forecasts using the OpenWeatherMap API.
  Technologies: React, Axios, JavaScript, Vercel, HTML, CSS

Omni food Restaurant Landing Page – Live Demo   **2023**
- A fully responsive restaurant landing page showcasing modern web design principles.
  Technologies: HTML, CSS, Responsive Design, CSS Grid, Flexbox.

Feed Bear Clone – Live Demo   **2023**
- A fully responsive recommendation web pages showcasing modern web design principles.
  Technologies: HTML, CSS, Responsive Design, CSS Grid, Flexbox.

Max Auto Care – Live Demo   **2025**
- A Full Stack E-commerce website for sale the filter and vehicle body part. Develop during working in Algo Soft Tech.
  Technologies: React, Tailwind, Laravel, MySQL.

Saraye – Live Demo   **2025**
- A Full Stack ecommerce website for sale the clothes. Develop during working in Algo Soft Tech.
  Technologies: React, Tailwind, Laravel, MySQL.

Tech Toolbox

Frontend
  Technologies: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, SASS, Responsive Design
Backend
  Technologies: Laravel, PHP, Node.js (Basic)
Databases
  Technologies: MySQL, Firebase (Firestore, Realtime Database)
Tools & Concepts
  Technologies: Git, GitHub, API Testing, RESTful APIs, Firebase Auth, OOP, DBMS
Additional Languages
  Technologies: C++, C#

Certifications &Courses

- The Complete JavaScript Course 2025: From Zero to Expert! - *Udemy*
- Advanced CSS and Sass: Flexbox, Grid, Animations and More! - *Udemy*
- Tailwind CSS From Scratch | Learn by Building Projects - *Udemy*
- PHP for Beginners - Become a PHP Master - CMS Project - *Udemy*
- Build Responsive Real-World Websites with HTML and CSS - *Udemy*
- Fundamental Programming - *KICKS UET, Lahore*
- *Legacy JavaScript Algorithm & Data Structures By – Free Code Camp (Certificate)*
